Extreme poverty is common in Vietnam's rural areas.

Message from the CEO

Dear friends and supporters,

Every person born into the world deserves the chance to experience a happy and nurturing childhood, regardless of their nationality, gender, or family circumstances. But across the globe, countless millions of children grow up in poverty and squalor, never knowing genuine love and affection, nor what 'childhood' really means.

Blue Dragon Children's Foundation strives to give children and teens in Vietnam the chances that they would otherwise be denied. Our focus on education for disadvantaged young people is our way of building hope for lasting change and a permanent end to poverty. But we do not limit ourselves to providing educational services; indeed, one of our strengths is the diversity of services that we offer.

Children can come to us to seek legal advocacy or psychological support; they can join activities ranging from sports to arts to outings; they can receive help to visit a doctor or live in a Blue Dragon home; they can hang out in our drop-in centre or talk with our social workers about reuniting with their parents.

This great range of services means that we need excellent staff and volunteers, and constant flexibility

among our managers and donors. As the children's needs change, so must our responses.

Over the past 12 months Blue Dragon has grown enormously, in response to the growing needs of our children and the growth in numbers of children seeking our help. As we enter into the new financial year, we face the challenge of remaining flexible and responsive to needs, and keeping our standard of service high.

As much of a challenge as this presents, Blue Dragon is confident of continuing to offer the very best services to disadvantaged children in Vietnam. And we look forward to continuing to work alongside our friends and supporters for another exciting year as we do this.

Sincerely,

Michael Brosowski
Founder and CEO
Blue Dragon Children's Foundation

Child lives with her family on Hanoi's Red River.

who are we?

Blue Dragon is a grassroots foundation working with kids in crisis throughout Vietnam.

Blue Dragon has set out to transform the lives of the poorest children and families, with education at the heart of everything we do.

Our kids come from many backgrounds, but all are in difficult circumstances and need a chance to make a change.

We meet the kids on the streets, or at their workplaces, or in their homes, and work with them until they can stand on their own feet, and live happy, prosperous lives.

Our range of services to children includes:

- **Social Workers** – making individual plans and monitoring children's progress
- **Child Rights advocacy** – standing up for kids when they are in conflict with the law
- **Psychological services** – offering counselling and group therapy to help kids deal with issues

such as anger management, grief, and behavioural problems

- **Accommodation** – giving kids a place to live in a healthy, family environment
 - **School fee relief** – enabling the poorest of the poor to afford a basic education
 - **Vocational training** – offering opportunities for older teens to explore vocational courses, from computing to cooking
 - **Employment counselling** – helping teens to think about their futures, and supporting them to find good jobs
 - **A drop-in centre** – providing a safe haven for children to play and learn
 - **Creative therapy** – engaging kids through drama, art, music and dance
- Blue Dragon achieves its aims utilising professional Vietnamese staff and long-term international volunteers.

We see the girls and boys as part of our extended family, and we care for them accordingly.

Blue Dragon's weekly soccer games reach out to children living in poverty around Hanoi's Red River.

OUR HISTORY

September 2002	Three friends start meeting street kids in Hanoi and offering classes in English, maths, art and yoga.
January 2003	Soccer for street kids begins. The team, called Real Betis Vietnam, meets every Sunday morning.
February – December 2003	The idea for founding Blue Dragon as an official charity grows. About 40 street children receive support from volunteers to return to school and employment.
March 2004	Blue Dragon is registered as an Incorporated Association in New South Wales, Australia.
August 2004	Blue Dragon's Stay In School program is launched, initially supporting 75 rural children in Bac Ninh province, north of Hanoi.
November 2004	Blue Dragon is registered as an Independent Non-Governmental Organisation in Vietnam.
March 2005	Blue Dragon opens a combined office/ centre near Long Bien market in Hanoi.
May 2005	Step Ahead, Blue Dragon's program for street children and children with disabilities, is launched as a pilot project.
August 2005	Stay In School provides support to 350 rural children.
January 2006	Step Ahead opens a drop-in centre in Hanoi.
October 2006	A residence for homeless children is established in Hanoi.
November 2006	Blue Dragon opens a computer learning centre for street children.
August 2007	Blue Dragon starts our work at the Hoi An Children's Home.
September 2007	Blue Dragon moves to a new location in Hanoi, with a combined office, drop-in centre, and learning centre.
April 2008	Launch of Safe And Sound, an anti-trafficking program based in Hue.
August 2008	Stay In School has grown, and is now supporting 350 rural children.
January 2009	At Blue Dragon's leading, the major national newspaper runs a series of 6 articles on child trafficking.

OUR WAY

OUR MISSION

To provide opportunities and tools that empower the most disadvantaged children and their families to break out of poverty, forever.

OUR PHILOSOPHY

Blue Dragon works according to the following ideals:

- Respect, not pity: The children we work with are treated with at least the same respect that we would treat our own sons and daughters, brothers and sisters.
- Development, not charity: Our work is to help children develop fully as they grow, through providing a broad range of experiences and opportunities.
- Rather than simply provide a handout, we provide a hand up for those who choose to better their circumstances and themselves.
- Empowerment, not dependency: Our role is to provide opportunities for children to pursue as individuals, rather than to force our views or values onto the children.
- Collaboration, not control: Our staff work alongside the children and their families, so that the beneficiaries are involved in all stages of our programs, rather than simply being recipients of charity.
- Massive interventions, not quick-fix solutions: We tackle the problem of poverty from every angle, rather than focusing on one obvious cause or effect. Our interventions may take years, as we persist until we are successful.

OUR VALUES

- Blue Dragon cares for the children in our programs.

- They are part of our extended family, and not just program beneficiaries.
- Blue Dragon provides safe shelters for children who need a place to escape turmoil.
- Blue Dragon treats the children with the greatest of respect and we include them in every part of our planning.
- Blue Dragon sees children as individuals, with their very own needs, dreams and personalities.
- Blue Dragon hopes that our children will grow up to share our values and concerns for those who are disadvantaged.

Studying at Blue Dragon's Drop-in Center. Our educational programs are broad and several former street kids have gone on to study at university.

OUR PROGRAMS

Program 1: Step Ahead

Location: Hanoi

Local Partner: Hanoi Association for the Relief of Handicapped Children

Who we serve

The Step Ahead program supports 250 - 300 highly disadvantaged children and teens living in Hanoi. Most are street kids or living with families effected by drugs, crime, or poor health. Approximately 30% of Step Ahead children have a physical or mild intellectual disability.

What the Program offers

Each child who enrolls in the Step Ahead program has an Individual Plan created through a process of negotiation between social workers, the child, and the child's family or caregivers (if any). Individual Plans take into account all of the children's needs, with the long term goal of enabling each child to break out of poverty, forever.

Step Ahead operates a drop-in and one residential home, as well as a host of outreach and social activities specifically for street children and children with disabilities.

A defining feature of Step Ahead is its diverse range of services for disadvantaged young people, including: school fee relief; psychology groups and counselling; tuition and homework assistance; arts and crafts; social activities, including outings and camps; certified computer courses, preparing students for the International Computing Drivers' Licence (ICDL) certificate; classes in health and sexuality; and nutritious meals. Children and young people receive support according to need, rather than a 'one size fits all' approach.

Step Ahead in 2007 - 2008

In July 2007, Blue Dragon secured a 5 year lease on a property in the Tan Ap area of Hanoi, close to the Red River and Long Bien Bridge. Extensive renovations were carried out, and in September the Step Ahead program, and Blue Dragon management, relocated to the new centre.

Previously, Step Ahead operated out of four buildings along one street. This created many problems with security, supervision, and communication. Our new centre combines most of our activities (except our residential programs) into a single 4-storey building which houses the drop-in, offices, classrooms, art and activities rooms, a kitchen, and a dining area.

Also in September, Step Ahead developed a new concept to reach street kids who were obviously not likely to fit in with our regular program. Step Ahead staff had for a long time been in contact with a group of teenage boys who lived and worked on the streets, often engaging in very risky behaviours and criminal activities.

These boys had no interest in leaving the streets and joining an education program. And so we created a 'club' called The Link, which offered some basic services to this group of teens, including informal ed-

education and a place to stay overnight. Each boy in The Link could choose a mentor from Blue Dragon's general staff; and attendance in classes was encouraged, but not compulsory.

Results of The Link are varied, but in general Blue Dragon believes that the concept is succeeding. The Link boys are no longer living on the streets, but live in a Blue Dragon home known as The Shelter. Although some have returned to the streets, most have settled into regular classes (including some classes held externally to Blue Dragon) and are clearly in much better health than they were prior to joining The Link.

The past year has also seen the development of Blue Dragon's legal advocacy service. In July 2007, we learned that one of the girls from Step Ahead had been kidnapped and sold to a brothel in China. Blue Dragon's Child Rights Advocate and one general staff member went to China to rescue the girl, and in so doing also managed to free 5 other girls and young women who had been similarly abducted and enslaved. Apart from this dramatic case, our two legal advocates have provided support to over a dozen children in conflict with the law, and helped several dozen children and teens to obtain their legal regis-

tration papers, including birth certificates and identification cards.

future Plans

Step Ahead needs to spend some time consolidating its many services and activities. In the coming year, the only additional service we plan to add is a health service, possibly managed by a full time nurse, to provide first aid, basic medical care, and health education to children in the drop-in .

Step Ahead now has accommodation to support up to 36 children and teens at a time. Our residential programs now need strengthening, through staff training and program development, to ensure good outcomes for all residents.

For the longer term, we hope that Step Ahead can secure a property that will house all of our work, including more space for activities and an outdoor area. Even though we now have a 5-year lease on our , we need a property that is more secure and possibly purpose-built in order that we can provide the best service possible to the children in our care.

Program 2: stay in school

Location: Thuan Thanh District, Bac Ninh Province

Local Partner: Bac Ninh Red Cross

who we serve

Blue Dragon's Stay in School program enables impoverished rural children at high risk of quitting school to continue with their education from Grade 5 up to the end of Grade 12. Stay in School reaches approximately 350 students in 15 schools throughout Thuan Thanh District of Bac Ninh province, about 40kms north of Hanoi.

what the Program offers

Inspiration for Stay in School came from Blue Dragon staff working with street kids in Hanoi, who realised that nearly all of the children working on the streets were from rural areas and had dropped out of school

because of poverty. The idea came about that we should find a way to reach children while they were still with their families in the countryside, before they quit school to become street kids.

Each child in Stay in School receives support to enable them to attend school.

Blue Dragon provides all school equipment – including a school bag, text books, writing books, stationery, and a school shirt – and pays school fees directly to each school.

Apart from material support, Stay in School provides encouragement to the children and their families, such as:

- An Opening Ceremony to celebrate the start of each school year (August)
- A Tet (Lunar New Year) celebration in which all sponsored children receive gifts (February)

stay In school in 2007 - 2008

In 2007-08, Blue Dragon sponsored 357 children across grades 5 to 12. Blue Dragon could only find sponsors to support 266 children, and used our general funds and donations to support the remaining 91.

Sponsored children were spread throughout school grades as represented by the graph.

In addition to supporting 357 children to attend school, Blue Dragon was involved in several small projects to directly assist children in need. These projects included:

- a) Providing 9000 brochures on water safety, hygiene and nutrition to students in
- 8 schools;

- b) Supporting orphaned brothers to pay off a debt and operate a small business;
- c) Building a house for one teenage girl;
- d) Supporting one Year 12 graduate to attend university

future PLANS

In 2009 - 2010, Blue Dragon plans to expand to one new district in order to reach more disadvantaged students. Our initial goal is to increase the number of program beneficiaries by at least 50.

We hope also to find new avenues of funding that will enable us to direct more material support to beneficiaries and provide more additional services such as workshops for students.

A volunteer's story

By Doug Everett

In 2006 I was lucky enough to be chosen by Blue Dragon to come over and look at their accounting systems. This was the start of an exciting relationship which has now resulted in four visits to Blue Dragon – the latest in July 2008 – and during this time I have developed a great admiration for the work of Michael and his team.

Blue Dragon has grown very fast, and as with all fast growing organisations this puts strains on their resources and administration. In 2006, Bich (pr. Bick), the Blue Dragon Finance Manager, was doing a great job keeping accounting information on her expertly designed spreadsheets, but Blue Dragon's extraordinary growth meant that this system was under stress. Together we set up a MYOB accounting package to cope with increasing complexities in reporting.

Since then, and in subsequent visits, annual budgeting has commenced, external auditors have been engaged, annual reports have been issued, and VIP Bikes, a social enterprise, has started.

In retirement, after almost 30 years in finance roles with Woolworths in Australia, I registered with Australian Business Volunteers, which is supported by the Australian Government. Blue Dragon had contacted ABV for assistance, and that's how I first became involved.

Blue Dragon is an exciting and energetic NGO. It is refreshingly free of formalities and unrestricted by 'corporate' mission and value statements. But it knows exactly what it is doing. Blue Dragon has one overriding desire to help kids in need whenever/wherever, and it delights in getting 'down and dirty' in streets of Hanoi and other places seeking out the kids in need. The enthusiasm of the staff is infectious. Their passion for the potential of the kids is inspiring. (And the spring rolls on the Tuesday lunch menu are magnificent!)

I was very fortunate to be picked as a volunteer in 2006 because I think I have gained more than I have given.

Program 3: Hoi An Children's Home

Location: Hoi An Town, Quang Nam Province

Local Partner: Quang Nam Union of Friendship Organisations

Who we serve

The Hoi An Children's Home accommodates 30 girls and boys from severely impoverished families in and around Hoi An town of Quang Nam province.

Many residents of the Home are from families living on Cham Island, off the coast of Vietnam, and all would be forced to quit school if not for the support of Blue Dragon. Residents are aged between 12 and 18 years old.

What the Program offers

The Hoi An Children's Home is located in a two-storey building surrounded by gardens on the outskirts of Hoi An. The children live together in a close-knit environment, cared for by Social Workers and Direct Care staff who provide for their daily needs while also offering social and educational support.

Children live at the Home primarily so that they can have access to school.

Therefore, all residents are enrolled in local schools and receive support to attend extra classes in the evenings and weekends. Activities such as cooking clubs, IT classes, foreign language training, and swimming lessons are offered.

The Hoi An Children's Home in 2007 - 2008

Blue Dragon commenced working at the Hoi An Children's Home in August 2007. Prior to this, the Home was run by the local government and supported by various small donors, each with their own agenda and intentions. The Home was severely understaffed

and underfunded.

In our first 10 months of managing the Home, Blue Dragon has put into place numerous systems and structures to ensure the ongoing care of the children. Record keeping systems have been created, and staff have been recruited to provide supervision and care around the clock. The training of staff has been a high priority throughout this time of transition.

Blue Dragon raised funds to build a fence around the perimeter of the property, to stop unwanted visitors entering, and also to prevent children from leaving without permission.

In late 2007, the Home was affected by a massive flood, which rose to the top of the ground floor and destroyed much of the furniture and equipment. Donors responded quickly in helping us to replace and repair almost all that was lost.

By the end of June 2008, staff have noticed significant improvements in the behaviour and school results of all residents at the Home. While such outcomes are

future Plans

Blue Dragon has an agreement to manage and fund the Home for four years, from August 2007 to August 2011.

In our first year, we have established programs and systems to improve the level of care that all residents can receive. However, we need to continue training

staff, and broaden our base of local volunteers, to ensure that such systems will continue indefinitely into the future.

We also need to turn our attention to our local partner, the Hoi An People's Committee, to cultivate their own interest and commitment to the continuation of these care systems beyond Blue Dragon's 4 year management period.

Anh's story

Twelve year old Anh has cerebral palsy and cannot walk or talk. She can only understand certain words and phrases that her mother has lovingly taught her. Most of her days are spent sitting on a mattress on the floor of her sparsely furnished house or in her wheelchair watching her mother sell newspapers. With little stimulation other than the company of her elderly grandfather, Anh's days are uneventful.

Because of the severity of her condition, Anh cannot attend school. Schools for children with disabilities of this type simply don't exist in Vietnam. So a Blue Dragon social worker and volunteer set out to help Anh and many other children like her, by delivering monthly "activity boxes" filled with games, toys, and basic educational materials.

In June 2008, Anh and her mother (pictured) joined in a two day excursion for 20 disabled children to Halong Bay, organized by Blue Dragon's Step Ahead. Splashing in the salty water and playing in the sand were totally new experiences for Anh and the other children. Such excitement!

Anh's future will likely never include going to school. But with the support of Blue Dragon, she will at least have opportunities to learn, grow and experience things outside of the tiny world she lives in every day.

Anh with Blue Dragon staff.

Program 4: safe AND sound

Location: Phu Vang District, Hue Province

Local Partner: Hue Red Cross

who we serve

Safe And Sound works with children and families living in extreme poverty in Phu Doan district of Hue province in central Vietnam. The children who receive support from this program are girls and boys who have been taken by child traffickers from their homes to Ho Chi Minh City to work on the streets or in garment factories.

what the Program offers

Safe and Sound seeks to apply a comprehensive approach to stamping out child trafficking from rural to urban areas. The program identifies and, where necessary, rescues children who have been trafficked; this normally involves facilitating the return home of children from Ho Chi Minh City to Hue.

Once the children are home, Blue Dragon continues to support them to return to school and recover their health, through medical and nutritional support.

Many children need help to obtain legal documents such as birth certificates. In order to prevent trafficking, Safe And Sound develops education programs aimed at either the communities or local government officials, to raise awareness of the consequences of trafficking.

safe AND sound in 2007-2008

Although Blue Dragon has been informally helping trafficked children since 2005, Safe And Sound was only launched in April 2008.

During the first 3 months of the program, we focused on two priority areas:

a) Securing the livelihood of children in the program. Most of the 30 families receiving our support live in dire circumstances. Our first step

was to ensure that they were receiving the medical and nutritional support that they needed, as well as support to attend school.

b) Training of local staff. Safe And Sound is unique in its comprehensive approach to tackling child trafficking.

There are no similar programs elsewhere in Vietnam, so our local partner (the Hue Red Cross) and our two employees have undertaken various forms of training to prepare them for the tasks that lay ahead.

future PLANS

Safe And Sound has great potential to reach many more children, and to effectively combat child trafficking in rural Hue. Blue Dragon plans, in the coming year, to increase the number of beneficiary families to at least 60; and to establish a Youth Centre in one of the three villages where the program operates. This will offer recreational activities as well as classes in literacy and health.

A family living on the beach with no access to clean water

other Programs

Legal Advocacy

An essential part of Blue Dragon's work involves providing a legal advocacy service to children who are enrolled in any one of our programs.

In 2008 – 2009, Blue Dragon employed two full-time lawyers who work to achieve outcomes such as:

- obtaining legal registration papers for children, teens, and families;
- ensuring that children in conflict with the law receive proper and just treatment;
- advising victims of crime on how to seek justice;
- teaching children about their rights and responsibilities; and
- working with local police and government authorities.

To our knowledge, Blue Dragon is the only organisation in Vietnam to employ Legal Advocates who work with disadvantaged young people.

VIP Bikes

In early 2008, Blue Dragon worked with a local en-

gineer to establish a social enterprise known as VIP Bikes.

VIP Bikes rents and repairs motorbikes, offering a high quality service, while also training disadvantaged youth from Blue Dragon.

During 2008-2009, VIP Bikes grew rapidly, from having less than 10 motorbikes for rent in July 2008, to having 50 in June 2009.

Individual Assistance

Blue Dragon works with many children and teenagers who do not fit neatly into our 4 main programs. A common example is of runaway children we meet through the Step Ahead program, who we then reunite with their families but may need some ongoing assistance such as school fee relief.

As these cases do not fit in elsewhere, we offer a program simply called Individual Assistance in which staff and management can direct support to any child according to their needs. We normally have 20-30 children receiving Individual Assistance.

Blue Dragon's free lunch program.

OUR FINANCES

Highlights of 2007-08 financial year

o An increase in support from the public resulted in our income increasing by 29% over the 2006 – 2007 financial year.

o Blue Dragon's activities expanded significantly during the year. Expenditure increased 73% compared to the previous year, mostly due to two new programs: The Hoi An Children's Home and Safe and Sound in Hue. In addition, we moved to bigger premises in September 2007 to allow for continued expansion in the number of children we can reach.

o In 2008, we spent 85 cents of every dollar on activities directly benefiting children and their families.

This was the second year in which Blue Dragon's accounts were audited by an independent, external auditing firm (KTC Assurance and Business Advisors). Their auditors concluded on August 31, 2008:

"We have audited the balance sheet of Blue Dragon Children's Foundation (Blue Dragon) as at 30 June 2008, and the related statement of income and expenditure... The financial statements have been prepared by the Blue Dragon's management in accordance with comprehensive accounting policies... In our opinion, the financial statements give a true and fair view of the financial position of the Blue Dragon as at 30 June 2008 and of its income and expenditure and fund balance for the year then ended in accordance with the accounting policies disclosed in the Note 2."

OUR FRIENDS

Blue Dragon is fortunate to have generous friends around the world who support us by providing the financial and material resources that help us sustain our programs. Without them, we could achieve nothing. Organisations who partnered with us this year include:

- AFAP (Australian Foundation for the Peoples of Asia and the Pacific)
- Intrepid Foundation
- World Vision Vietnam
- 100 Friends (USA)

Blue Dragon is also grateful for the talented people who have come to volunteer with us through the following volunteer organisations:

- Australian Youth Ambassadors for Development (AYAD)
- Volunteering for International Development from Australia (VIDA)
- Volunteer Services Overseas (VSO)
- Australian Business Volunteers (ABV)

Financial and material support has come from a variety of sources and locations around the world. A list of financial supporters is provided below, and listed by category. A particular thank-you goes to World Vision Singapore for funding the bulk of our *Step Ahead* Program.

In addition to the NGOs, embassies, foundations, businesses and schools who support us, we have over 1000 individual, private donors who have contributed to helping us achieve our goals. Some donations are small, and some are quite substantial. But all donations are equally important and appreciated in our fight against poverty in Vietnam.
